ADARSH BHAGAVATI

Computer Science Engineering

+91 7676581964 | adarsh.bhagavati@gmail.com | Adarsh Bhagavati | Github

Objective:

Computer Science Engineering graduate with a strong foundation in Java, object-oriented programming, data structures, and full-stack web development. Experienced in designing and developing database-driven web applications, implementing RESTful APIs, and building scalable software solutions. Passionate about developing efficient, user-centric applications and continuously enhancing technical expertise in Java Full Stack Development.

Educational Qualifications:

Degree	Institute/School	CGPA
Computer Science and Engineering (B.E) (2022-2026)	**KLS Gogte Institute of Technology, Belagavi**	**7.2**
Pre-University College (2022)	**Base PU College, Hubballi**	Percentage: **77%**
High-School (2020)	**KLE's M.R Sakhare English Medium School (CBSE), Hubballi**	Percentage: **79.6%**

Skills:

Technical Skills:

- **Programming Languages:** C, Java, Python, SQL
- Web Development, React.js, AWS
- **Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA)
- **Tools & Technologies:** AI Agents, Github.

Soft Skills:

- Problem- solving, Logical Reasoning, Leadership, Time Management, Teamwork, Communication, Adaptability, Decision-making, Active Listening

Projects:

AI Healthcare Diagnostic Assistant

- **Tech Stack: Python, Java, Spring Boot, MySQL, HTML, CSS, JavaScript, REST APIs**
  - Developed an AI-powered healthcare diagnostic web application that analyzes patient symptoms and generates preliminary diagnoses through an interactive questionnaire.
  - Designed and implemented a database-driven architecture to manage patient information, diagnosis history, and doctor interactions efficiently.
  - Developed backend services and integrated APIs to facilitate symptom processing, user management, and seamless communication between system components.

Smart Study Scheduler – Learning Management Systems

- **Tech Stack: Java, Spring Boot, MySQL, HTML, CSS, JavaScriptt.**
  - Developed a web-based learning management system that enables students to create, organize, and manage personalized study schedules and academic tasks.
  - Implemented CRUD functionalities, user authentication, and database operations to ensure efficient management of schedules and user data.
  - Designed an intuitive user interface and modular backend architecture to improve usability, maintainability, and overall application performance..

Certificates:

- AWS Cloud Practitioner Essentials
- Hands On Python Data Science - link
